Bio-regeneration: from planning to amplified outcomes

REPORT SUMMARY

PATIENT

A 36-year-old woman with well-controlled hypothyroidism sought improvement of skin quality and mild laxity.

TREATMENTS

She was treated in a single session with **Neauvia Stimulate** (1 mL, midface, cannula), **Hydro Deluxe** (2.5 mL full face), and **LaserMe** (automatic mode, two passes).

RESULTS

The combined, layer-by-layer approach enhanced bioregeneration, improved dermal-epidermal communication, and delivered natural, harmonious results with visible impact. The treatment proved safe and effective, with sustained improvements observed over time.

Neauvia products are for trained experts only. Use must follow approved indications and the Instructions for Use (IFU) in accordance to applicable laws and regulations in each country. Physicians are solely responsible for any treatments outside these conditions. The results shown are specific to an individual treatment plan. Treatment decisions must be adapted to each patient, who may respond differently based on numerous factors. Outcomes are variable and not guaranteed.
