## Facial paralysis two cases treatment with hyaluronic acid

### REPORT SUMMARY

#### PATIENT

Two women with facial paralysis were treated using outpatient protocols with hyaluronic acid fillers as volume restorers, skin quality enhancers, and myomodulators.

#### TREATMENTS

A 74-year-old received **Neauvia: Intense LV, Stimulate, Intense Lips, Intense Flux**, and threads, while a 71-year-old post-trauma patient underwent therapy with

**Neauvia: Intense LV, Stimulate, Intense Lips, Hydro Deluxe**, threads, and **Zaffiro**.

#### RESULTS

Both showed measurable improvements in contour, elasticity, and symmetry, achieving natural aesthetic results and high satisfaction.

**/ FILLERS**
