## Sandwich Technique

### REPORT SUMMARY

#### PATIENT

A 58-year-old woman with uneven skin tone, mild inflammation, and dermal thinning (Glogau grade 3).

#### TREATMENTS

Underwent three sessions of **Neuvia Hydro Deluxe** (PEG-HA + CaHA), **LaserMe** 1470 nm, and **Instant Recovery Mask**, with pre-treatment **Melan Ox serum** and **SPF 50+**.

#### RESULTS

The combined protocol improved hydration (+30%), reduced pigmentation/inflammation (-20%), and increased dermal thickness (+25%) and density (+70%), resulting in smoother, firmer, and brighter skin with minimal downtime.

Neuvia products are for trained experts only. Use must follow approved indications and the Instructions for Use (IFU) in accordance to applicable laws and regulations in each country. Physicians are solely responsible for any treatments outside these conditions. The results shown are specific to an individual treatment plan. Treatment decisions must be adapted to each patient, who may respond differently based on numerous factors. Outcomes are variable and not guaranteed.
