Stimulate: more than just volumizing?

REPORT SUMMARY

PATIENT

60-year-old female, new to aesthetic medicine, presented with hollow cheeks, laxity, and jugal wrinkles.

TREATMENTS

Treated with **Neauvia Stimulate** (1 ml/ side, deep dermis, retrograde fanning with cannula) in two sessions spaced 2 years apart. Immediate volumization, lifting, and progressive skin improvement

were achieved through collagen stimulation.

RESULTS

Results were natural, long-lasting (up to 24 months), with minimal side effects. Similar outcomes were observed in other patients, confirming safety and versatility of this approach.

STIMULATE

Neauvia products are for trained experts only. Use must follow approved indications and the Instructions for Use (IFU) in accordance to applicable laws and regulations in each country. Physicians are solely responsible for any treatments outside these conditions. The results shown are specific to an individual treatment plan. Treatment decisions must be adapted to each patient, who may respond differently based on numerous factors. Outcomes are variable and not guaranteed.
