REPORT SUMMARY

PATIENT

A 37-year-old female with 10 kg weight loss in 2 months presented with facial sagginess and reduced skin quality.

TREATMENTS

Treatment aimed to prevent laxity and improve hydration using **Hydro Deluxe** (18 mg/ml, CaHA-enriched) via fanning technique and **LaserMe** (1470 nm non-ablative fractional laser).

RESULTS

Sessions focused on improving skin texture, brightness, and firmness. The combined protocol delivered noticeable improvement in skin quality, elasticity, and hydration, offering a safe, effective solution for sudden weight-loss-related facial changes.
