Post-trauma lip filler

REPORT SUMMARY

PATIENT

A 45-year-old woman with post-traumatic lip deformity from a dog bite, including lower lip loss and upper lip laceration.

TREATMENTS

Underwent three unsuccessful surgeries. One year after healing, she received **Neauvia Hydro Deluxe** (periorbicular), **Neauvia Intense LV** (lower lip), and **Neauvia Intense Lips** (upper lip) using

fanning and bolus techniques with cannulas and needles.

RESULTS

Treatment restored volume, symmetry, tissue pliability, and oral competence, proving safe, effective, and improving both function and quality of life.

Neauvia products are for trained experts only. Use must follow approved indications and the Instructions for Use (IFU) in accordance to applicable laws and regulations in each country. Physicians are solely responsible for any treatments outside these conditions. The results shown are specific to an individual treatment plan. Treatment decisions must be adapted to each patient, who may respond differently based on numerous factors. Outcomes are variable and not guaranteed.
